Dear parent/carer,
Overleaf, you will find the revision timetable between now and the SATs tests in May. The date in the left column shows the earliest date that we will mark the books - please ensure that the appropriate pages have been completed by this date.

I have attached the dates for the whole term so that you can plan accordingly for busy times and make sure the work is completed. However, please try not to allow your child to jump too far ahead as it will be more beneficial for us to mark the same pages as a group and address any misconceptions as they crop up.

SATs week is May $9^{\text {th }}-$ May $12^{\text {th }}, 2022$
This year, there are three different maths books. Children have been given either the Foundation, Standard or Stretch question book based on their predicted attainment at the end of Y6. We will, of course, still be introducing levels of challenge for all children in maths lessons during school time. There may also be time during the week when children can do some of the revision exercises, so it would be useful if books could be brought into school whenever possible.

If your child struggles with anything in particular, please do not panic, simply mark in the book the concept that is difficult, and we will make sure we go over it in class. The revision books act as a useful indicator of whether there are any topics that the class as a whole is unsure of - we will then plan additional lessons to ensure that misconceptions are addressed.

We have included study books for maths and grammar - these are very useful information books to help your child complete the questions. We would like them to be returned to us in June so that we can reuse them next year.

Please phone/email the office if you have any queries.
Thank you for your continued support,
Miss. Griffiths and Mrs. Quick
